

The logo for JM TRADERS is centered on the page. It consists of a dark navy blue circle with a thin, light grey border. Inside the circle, the letters 'JM' are written in a large, bold, white, sans-serif font. Below 'JM', the word 'TRADERS' is written in a smaller, bold, white, sans-serif font. A horizontal blue band passes behind the circle, creating a slight shadow effect.

ABOUT US

We are JM TRADERS, a Kerala-based Red Sandalwood trading firm that blends sustainability, legality, and quality in every transaction. Our founder, Mr. Robin T Johny, envisioned a company that would serve as a bridge between certified plantation growers and global industries demanding ethical and premium Red Sanders. Established in 2025, JM TRADERS works exclusively with Artificially Propagated Red Sandalwood, ensuring each consignment is CITES-compliant and legally sourced. Our expertise spans across procurement, brokerage, and direct trade of logs, billets, and wood chips with high oil content. We cater to niche industries including perfume production, Ayurvedic health, high-end furniture, incense making, and spiritual carving.

We believe that legal trading can coexist with environmental conservation. Our sourcing strategies reflect deep respect for regulations and responsible forest practices. Clients benefit from our transparent pricing, customized orders, and dedicated support throughout the procurement process.
